

Tex 03 PS and TEX 05P are the two most preferred lightweight breakers required for renovation. Due to their lightweight, it is easier to use these tools for all kinds of overhead-breaking jobs. And it also gives better access to the difficult corners. The Atlas Copco Tex 05PE (8461 0219 10), is the same as Tex 05 P with a few added features.

### What is good about it?

- Soft start
- Easy to use
- Light weight
- Durability

### Where it is used?

- Renovation and structural alteration work
- Chipping concrete
- Roughening surfaces
- Hole making
- Chasing and trimming of various materials
