

The PE series of the Pneumatic Breakers delivers the best and most long-term productive hours. The advanced silencer and the vibration-reducing system allow longer operation hours for the daunting jobs. If you are looking for a heavy-weight breaker the **Tex 33PE (8461022700)** is the best choice. The single-cast body makes it easy to maintain as it reduces the need for the nuts to hold the parts. It also has around 25% fewer parts in comparison to the traditional Pneumatic Jack hammers. Higher power means higher the sound and the vibration. But that is not the case with **Tex 33 PE**. The HAPS provides great comfort to the users for a longer work duration. **Tex 33 PE** Pneumatic Breaker gives you the flexibility to select from two different Shank Sizes, a. 32 x 160 mm (8461 0227 00) and b. 28 x 160 mm (8461 0227 01).

What is good about it?

- Balanced performance
- Solid body
- Smooth breaking

Specification

Model #	TEX 33 PE	
Weight with silencer	37 kg	82 lb
Length	745 mm	29.3"
Air consumption	34 l/s	72 cfm
Blows per minute	1200	
Shank size (standard) - 8461 0227 00	32 x 160 mm	1¼" x 6¼"
Shank size (optional) - 8461 0227 01	28 x 160 mm	1⅝" x 6¼"
Retainer type	Latch
