

RMT 777 Pneumatic breakers are powerful, durable tools. Designed for a range of building and plant maintenance tasks, such as breaking heavy concrete, reinforced concrete, frozen ground, macadam, boulders, and pavement. The RMT 777 pneumatic breaker has a great power-to-weight relationship despite being heavy and well balanced. It is therefore the ideal tool for a variety of heavy duty demolition tasks.

## What is good about it?

- Quick changeable retainer
- Cushioned handle grips for comfort

## Where it is used?

- Drilling in mine and coal bed.
- Crashing concrete and clay.
- Blasting in civil engineering and underground construction.

## **Specification**

Model #	RMT 777	
Technically Equivalent	RB 777	
Weight	37.3 Kg	82 lb
Length	715 mm	28.15"
Air Consumption	34 l /s	72 cfm
Blows Per minute	1100 bpm	
Piston dia	57 mm	2.24"
Piston Stroke	189 mm	7.44''
Air inlet (NPT)	19 mm	3/4"
Shank Size	32 x 160 mm	1¼" x 6¼"
Retainer Type	Latch
